Clean Stride® Mats

Specialty Mats • Indoor

The Clean Stride mat features a WaterHog mat followed by an adhesive surface that captures smaller dust and dirt. Just two steps on a Clean Stride adhesive insert removes over 90% of dirt particles, making this mat ideal for clean rooms, healthcare facilities, school gymnasiums, server rooms, and other areas sensitive to dirt and dust particles.

- Raised nubs on the WaterHog mat remove dirt and moisture from shoes and trap it below foot level while the adhesive insert removes any remaining dirt or dust particles
- Adhesive inserts sold separately, each with 60 numbered layers
- Available with smooth or cleated backing
- Not recommended for wet areas

Colors may vary due to inconsistencies of various display monitors or printers (if you're viewing a printed version of this document). Color images are intended to be used as a guide only.
