

WaterHog® Silver Mats

Scraper/Wiper Mats • Indoor/Outdoor

WaterHog Silver mats feature the unique bi-level design that made WaterHog mats famous, with a new anti-microbial surface that reduces bacteria growth by 99%!

- **Anti-Microbial** – Woven with a unique silver ion anti-microbial fiber, WaterHog Silver mats offer added protection from odor-causing bacteria
- **Dirt & Moisture Control** – Bi-level surface effectively scrapes dirt and moisture from shoes, trapping it beneath shoe level to prevent tracking; water dam border holds moisture keeping it off your floors (WaterHog mats can hold up to 1.5 gallons of water per square yard)
- **Durable** – Reinforced rubber nubs prevent pile from crushing and extend the performance life of the mat
- **Fade & Stain Resistant** – Solution-dyed PET fabric (30 ounces per square yard) is resistant to staining, dries quickly, and will not fade or rot
- **Safe** – Beveled edges provide a safe transition from floor to mat; WaterHog products are certified high-traction by the National Floor Safety Institute (NFSI)
- **Eco-Friendly** – SBR rubber backing contains 20% post-consumer recycled rubber from car tires; PET surface is made from at least 90% recycled materials
- Available in 2 colors with a classic black rubber border
- Feature 78-mil SBR rubber with universal cleated backing or smooth backing; mats measure approximately 3/8" thick

WaterHog® Silver Mats

Scraper/Wiper Mats • Indoor/Outdoor

Product No. 184 (classic border) 3/8" thickness

| Size (ft.) | Size (in.) | Product Weight |
|------------|------------|----------------|
| 2' x 3' | 23" x 35" | 6 lbs. |
| 3' x 5' | 35" x 58" | 13 lbs. |
| 3' x 10' | 35" x 116" | 20 lbs. |
| 4' x 6' | 45" x 71" | 19 lbs. |
| 4' x 10' | 45" x 116" | 30 lbs. |
| 6' x 8' | 70" x 97" | 38 lbs. |
| 6' x 10' | 70" x 116" | 49 lbs. |
| 6' x 12' | 70" x 143" | 59 lbs. |

Note: Mat sizes are approximate as rubber shrinks and expands in conjunction with temperature and time. Tolerable manufacturing size variance is 3-5%.

WaterHog Silver features a zirconium phosphate-based ceramic ion-exchange resin that contains silver. This resin is effective against a broad spectrum of microorganisms that cause discoloration, odor, biofouling, and other aesthetic problems. In independent tests conducted by The MicroStar Lab, WaterHog Silver reduced bacteria growth by more than 99%. During testing, WaterHog Silver mat swatches are placed in a sterile container, inoculated with bacteria[^], and incubated for a specified time. After incubation, colonies of recovered bacteria are counted and used to determine percent reductions. In the WaterHog Silver test, less than 1% of the bacteria remained; more than 99% had been reduced.

[^]Specifically the klebsiella pneumoniae and staphylococcus aureus bacteria
