

WaterHog® Silver Mats

Scraper/Wiper Mats • Indoor/Outdoor

WaterHog Silver mats feature the unique bi-level design that made WaterHog mats famous, with a new anti-microbial surface that reduces bacteria growth by 99%!

- **Anti-Microbial** – Woven with a unique silver ion anti-microbial fiber, WaterHog Silver mats offer added protection from odor-causing bacteria
- **Dirt & Moisture Control** – Bi-level surface effectively scrapes dirt and moisture from shoes, trapping it beneath shoe level to prevent tracking; water dam border holds moisture keeping it off your floors (WaterHog mats can hold up to 1.5 gallons of water per square yard)
- **Durable** – Reinforced rubber nubs prevent pile from crushing and extend the performance life of the mat
- **Fade & Stain Resistant** – Solution-dyed PET fabric (30 ounces per square yard) is resistant to staining, dries quickly, and will not fade or rot
- **Safe** – Beveled edges provide a safe transition from floor to mat; WaterHog products are certified high-traction by the National Floor Safety Institute (NFSI)
- **Eco-Friendly** – SBR rubber backing contains 20% post-consumer recycled rubber from car tires; PET surface is made from at least 90% recycled materials
- Available in 2 colors with a classic black rubber border
- Feature 78-mil SBR rubber with universal cleated backing or smooth backing; mats measure approximately 3/8" thick

WaterHog® Silver Mats

Scraper/Wiper Mats • Indoor/Outdoor

Product No. 184 (classic border) 3/8" thickness

Size (ft.)	Size (in.)	Product Weight
2' x 3'	23" x 35"	6 lbs.
3' x 5'	35" x 58"	13 lbs.
3' x 10'	35" x 116"	20 lbs.
4' x 6'	45" x 71"	19 lbs.
4' x 10'	45" x 116"	30 lbs.
6' x 8'	70" x 97"	38 lbs.
6' x 10'	70" x 116"	49 lbs.
6' x 12'	70" x 143"	59 lbs.

Note: Mat sizes are approximate as rubber shrinks and expands in conjunction with temperature and time. Tolerable manufacturing size variance is 3-5%.

WaterHog Silver features a zirconium phosphate-based ceramic ion-exchange resin that contains silver. This resin is effective against a broad spectrum of microorganisms that cause discoloration, odor, biofouling, and other aesthetic problems. In independent tests conducted by The MicroStar Lab, WaterHog Silver reduced bacteria growth by more than 99%. During testing, WaterHog Silver mat swatches are placed in a sterile container, inoculated with bacteria[^], and incubated for a specified time. After incubation, colonies of recovered bacteria are counted and used to determine percent reductions. In the WaterHog Silver test, less than 1% of the bacteria remained; more than 99% had been reduced.

[^]Specifically the klebsiella pneumoniae and staphylococcus aureus bacteria
